

bio-agritourism *Il Melograno* *the country of Venice*

*Venice, the lagoon, the sea, the country,
Padua, Treviso, Pre-Alps, Dolomites.*

The bio-agritourism “Il Melograno”

was born near the lagoon of Venice in 2007, with the idea to combine a relaxing rural stay with a visit in Venice and other beautiful towns in our area like Treviso, Padua and Jesolo.

Land Ca 'Serafin, where lies the farm, exists since 1918.

Since 1980 is characterized by the conversion to organic farming, with production in field and greenhouse of vegetables and fruits, which are now distributed directly to the consumer at the store located in the farm. **Michela and Gianni Serafin give you their welcome.**

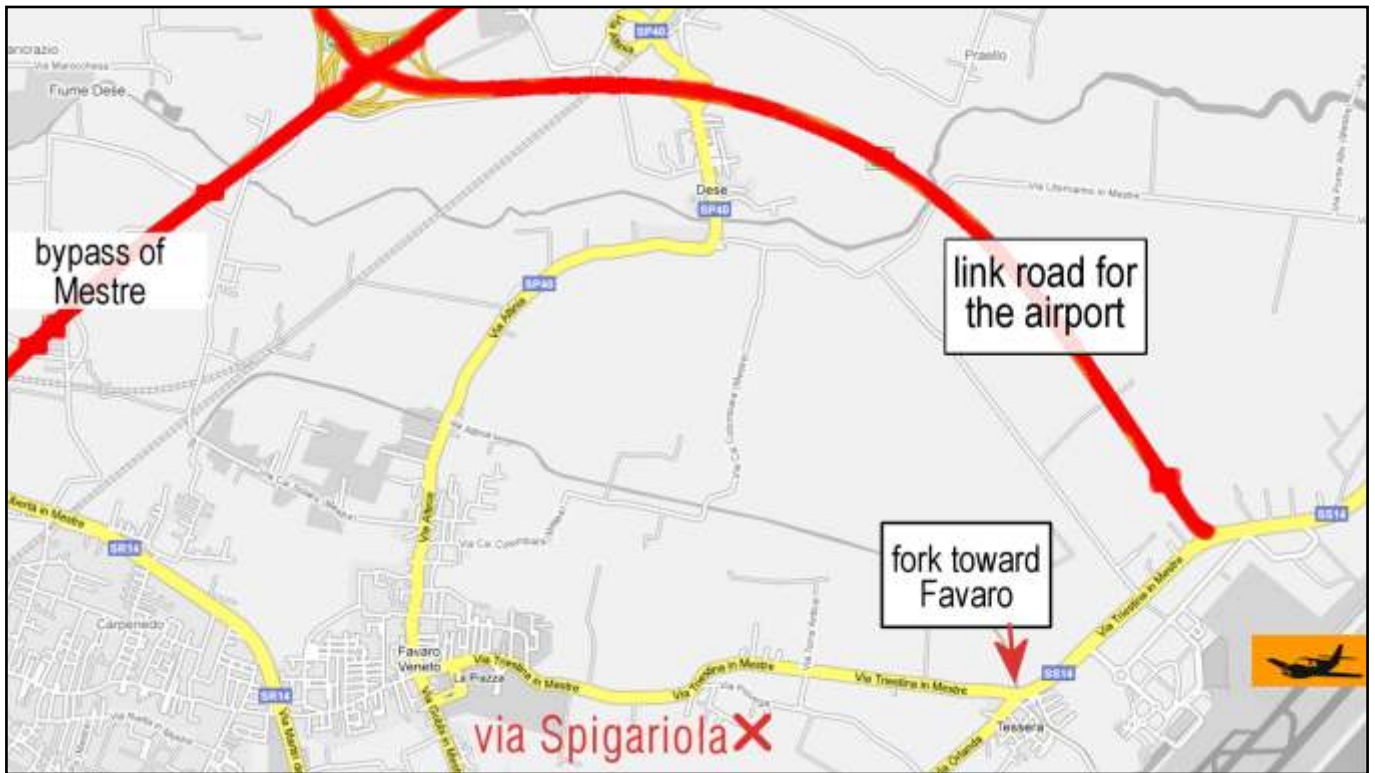

The bio-agritourism “Il Melograno”, part of the organic farm “Serafin” is located in the Venetian countryside and offers its guests four new private apartments, which are equipped with every comfort: heating and air conditioning, satellite TV, private parking.

On the following pages there is an extensive photographic presentation of the apartments and the farm where they are inserted. There is also a brief presentation of the farm with its history and of course the price list.

Maps

From airport (3 km): bus 15 (stop *via Piovega*)
+ 300 m. on foot.

From railway station of Mestre (10 km): bus 15
toward the airport (stop *via Piovega*) + 300 m. on foot.
